INTRODUCTION

Greetings, aspiring travel guide creators and future Amazon KDP authors! I'm excited to welcome you to this transformative journey as you craft your travel guide eBook. But before we delve into the fascinating world of travel writing and publishing, I want to extend my heartfelt congratulations to all of you for seizing this incredible opportunity without procrastination.

The **travel guide niche** on Amazon involves creating content like books (Paperback, Hardcover) and e-books that offer travel recommendations and tips. It's profitable due to consistent demand from travelers, diverse audience segments, and multiple monetization avenues. Additionally, it often faces less competition than other niches because it requires expertise and a

genuine passion for travel, which not everyone possesses. This specialization can help you stand out and succeed in the niche.

Remember, every incredible journey begins with a single step, and your journey as a travel guide author starts here. So, congratulations once again for seizing this opportunity with unwavering determination.

EXTENSIONS

Greetings,

Depending on the time you're reading this, whether it's morning, afternoon, or evening.

Here are the instructions for different device users:

Android Users: Install Kiwi Browser.

iPhone Users: Unfortunately, you can't add extensions.

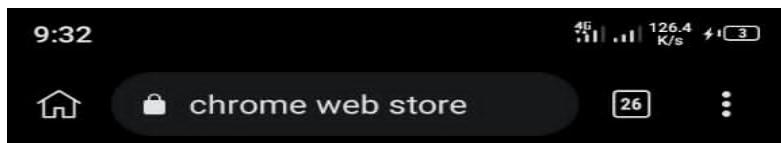

PC Users: Install the Chrome browser, either the 32-bit version (Chrome x86) or the 64-bit version (Chrome x64) based on your PC's system (32-bit or 64-bit).

I will explain the process using a phone, we will be installing two essential extensions in our Kiwi Browser.

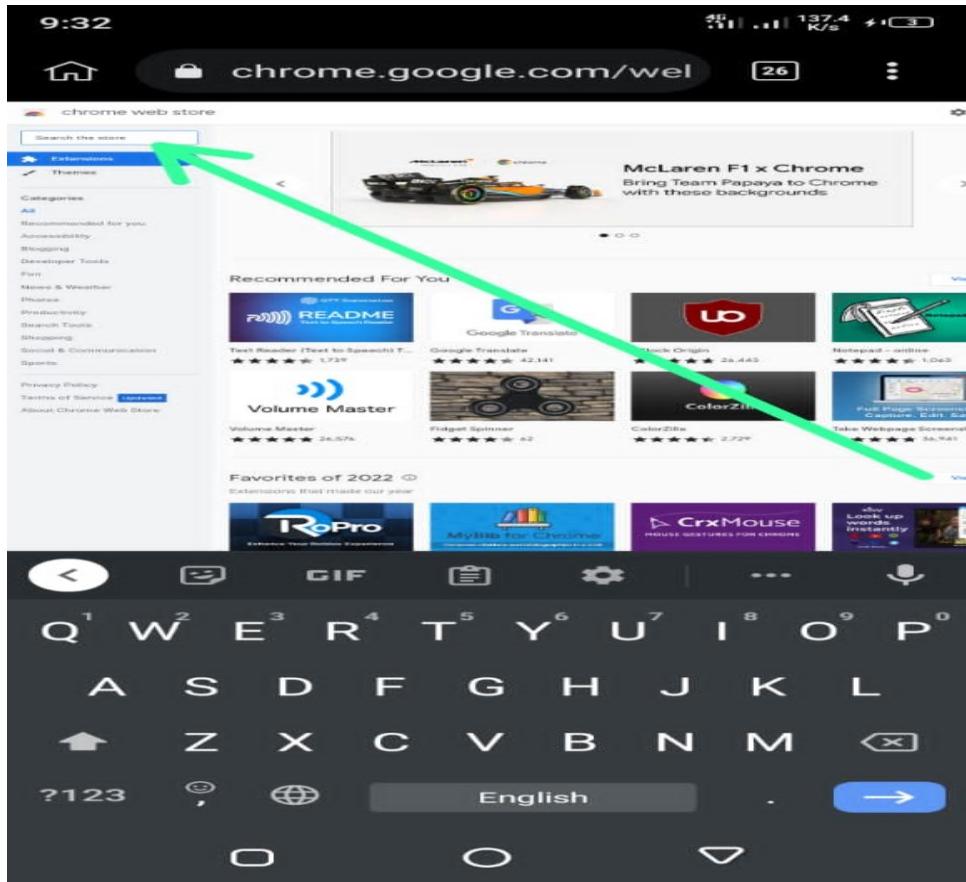

1. [Amz suggestion expander](#)
2. [Self publishing titans.](#)

Here are the steps!

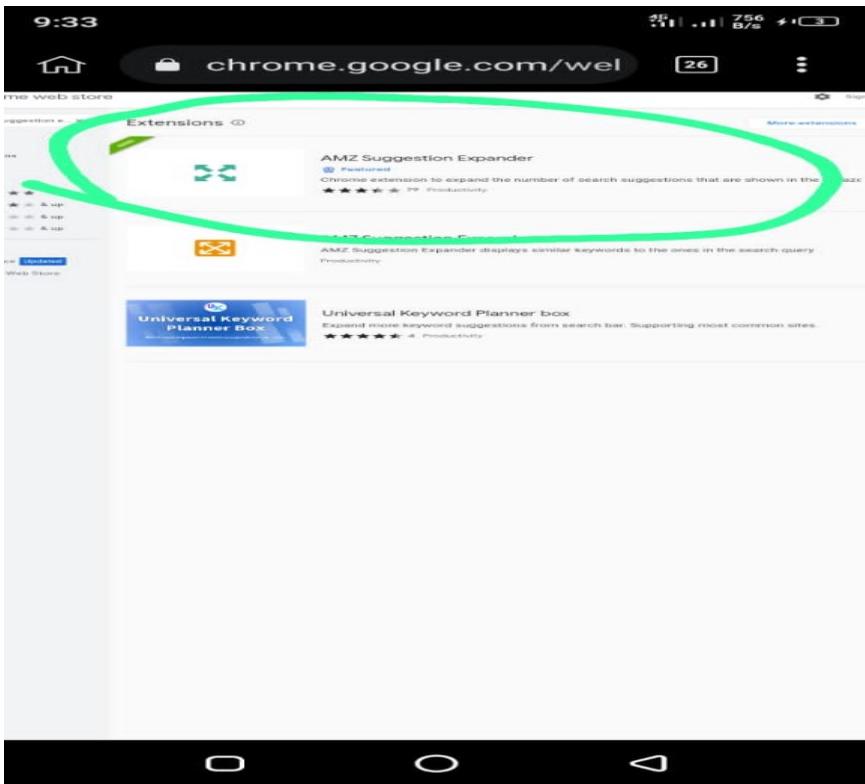

- Open your browser and search for the "**Chrome Web Store.**"

- Search "AMZ suggestion Expander"

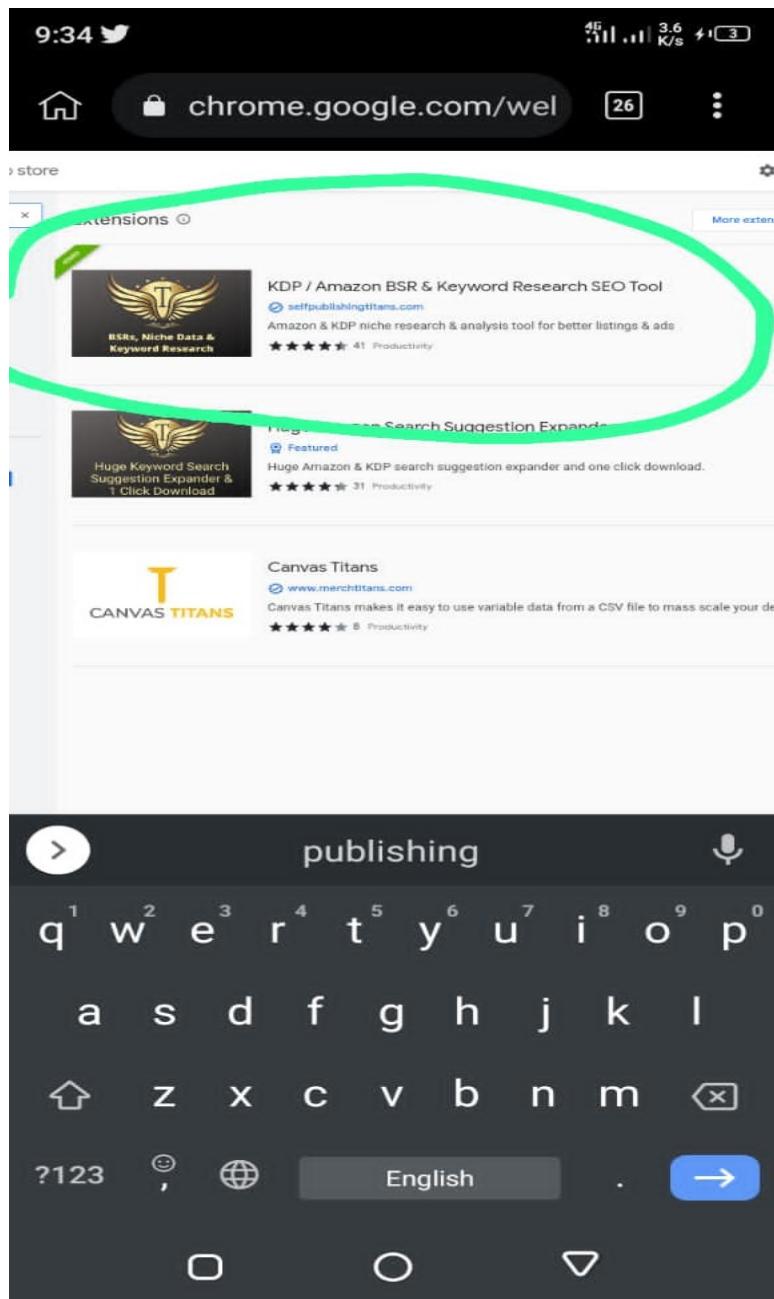

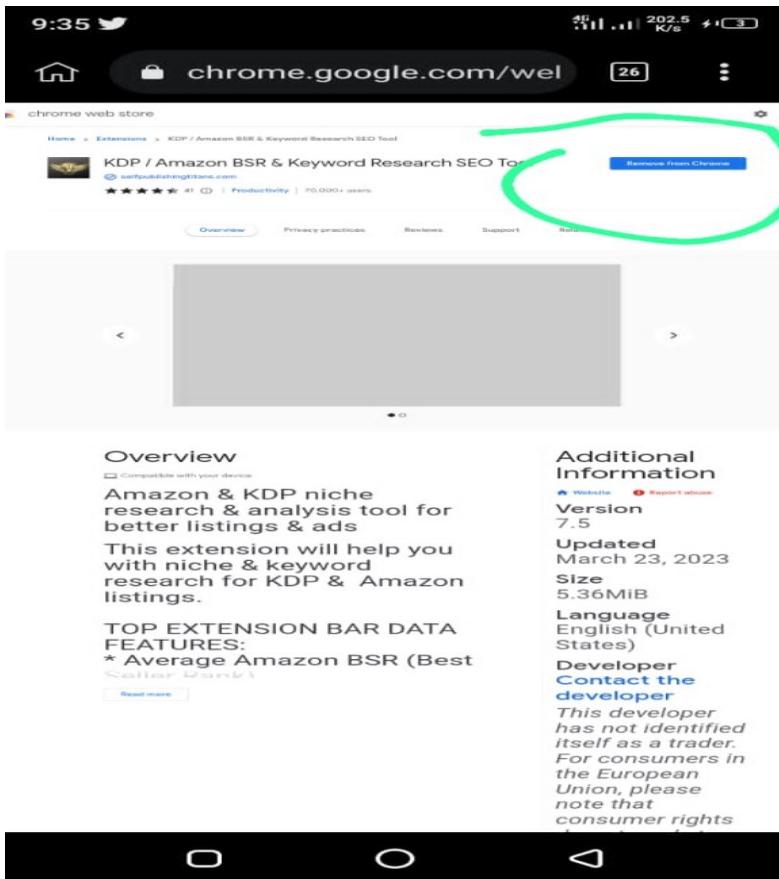

- This is how AMZ suggestion expander looks like.

On the left side of your screen you will see "**Add to Chrome**"

- click it and add it to your kiwi browser.
- Next, return to your search bar and search for **Self Publishing Titans**.

- Click on "Add to Chrome." If it shows "Remove from Chrome," it means you've already added it.

Keyword Research

Method 1

Creating a country travel guide, like "**Nigeria Travel Guide**," is a valuable but demanding work. Today, we will discuss keywords that can guarantee you sales.

As a beginner (newbie), providing everything customers want, such as comprehensive facts, can be challenging. **Niche Down to specific states or the top attractions** within that country (e.g., "Top Attractions in Nigeria") is a wise approach.

Country travel guides are often lengthy and bulky, typically ranging from 200 to over 400 pages. While it can be a demanding task, writing such is stressful, but you can.

Sagir did not suggest avoiding country-specific guides (eg Nigeria, USA, UK, Brasil).

It's **important** to note that many customers or buyers lack the time to read through lengthy guides of 200 to 400 pages

NICHING DOWN

Niching down in Amazon KDP for travel guides means focusing on a **specific**, narrow topic within travel. Instead of covering an **entire country**, you target a smaller area or a **specific** interest within travel. This helps you reach a more specific audience and reduces **competition**, making it easier to **stand out**. It's a smart way to show your expertise, and you can use targeted **keywords** to increase **visibility**. Just be sure to pick a niche with **enough demand** and provide **valuable content**.

HOW TO NICHE DOWN

I'm planning to visit America, but my favorite destination is California. I'm really just interested in exploring California and don't have any **intention** of going elsewhere. So, I'll be purchasing the California Travel Guide (destination in America) and not the America Travel Guide, as I'm only focused on exploring California only.

As a beginner, always niche down to sub-niche like;

- Cities (eg most visited cities in nigeria)
- Island (eg most visited Island in asia ,europe etc)
- Religious and spiritual cities
- Town
- Historical cities
- Village

YOU CAN CREATE TRAVEL GUIDE FOR:

- Low budget travel
- Hidden place
- Country guide

SUMMARY

I niched down from America (country) to California (state)

Why did I did that?

1. To gain visibility
2. Avoid Competition
3. Specific Target Audience

Go to:

[Google.com](https://www.google.com) or [Bard.google.com](https://bard.google.com) and search.

Niche score greater than 40

We got (53) wowwwww that's great.

Some might ask What is Average bsr"

Average bsr means "**Average Best Seller Rank**"

Like I said earlier

Lagos might not be only in Nigeria

If your keyword have these criteria you can work on it.

METHOD 2

People watching sports, this class is for you.

Example, those watching Football, Volleyball, Basketball, Tennis, Table Tennis etc.....

Football leagues for example

Premier league

La Liga

Seria A

Seria B

Ligue 1 and more

All these teams names are keywords, but you are playing with them. Without knowing you are leaving money for ground.

Those watching basketball ball, especially United States leagues, keywords much there. You can

search for hot occasion to host in and write your travel guide on that place and include the host name.

For example UCL final host in **ISTANBUL 2023**. You can write on istanbul and put **ball** on your cover. Your potential customer will understand you include UCL game venue, things to do, where to stay, stadium, ticket price etc.

Another amazing method

- TIKTOK
- INSTAGRAM
- FACEBOOK
- TWITTER
- WHATSAPP CHANNELS

Example

On your TIKTOK, search best places to visit in (2023, 2024, summer, winter, or months)

METHOD 3

Today am going to show you how to get keyword using sites.

- My friend send me forex challenge site

- Am not saying that you will trade, don't get me wrong please.
- By the process of me filling it

Secret of writing state or city rather than country travel guide

Consider pricing your Country Travel Guide at either \$3.99 or \$4.99, with the highest option at \$6.99 for the Kindle edition. Now, imagine someone specializing in writing **state-specific** travel guides. For instance, let's take the examples of **Ma'am Jewel**, who focuses on entire countries travel guides, and **Sir Sagir**, who concentrates only on individual states.

Jewel publishes her Nigeria Travel Guide, while Sagir releases his travel guides for various states, emphasizing the best places to visit **within each state**. Sagir sets a **competitive price** of \$2.99 for his **state-specific guides**. Let's assume he offers guides for eight (8) different states.

Sagir's approach offers several advantages, leading to potentially higher sales:

- Specializing in state travel guides can be more profitable than creating comprehensive country guides.
- Sagir's state guides can offer more **detailed** and **targeted information**, catering to specific interests.

Some travelers have a preference for visiting particular states rather than exploring an entire country, making Sagir's guides more appealing.

- For example, if a buyer wants to visit Abuja, they may find Sagir's **state-specific guide** to be more **informative** and relevant than a comprehensive country guide like Jewel's.

By pricing his books competitively and offering valuable, specific information, Sagir can attract more buyers. Some travelers are looking for **precise details** and some travelers prefer not to navigate through lengthy travel guides that can be as extensive as 200 to 400 pages.

In this scenario, assuming Hafsat sells 20 copies of her Nigeria Travel Guide priced at \$3.99, while Joseph sells 40 copies of his state guides priced at \$2.99, Joseph is likely to garner more attention from buyers. His guides are affordable and rich in

focused, insightful content, making them a preferred choice for many travelers.

SITES TO GET UP TO DATE CONTENT

METHOD 1

I wanted you to know that I have spent a lot of time researching to find websites that have the most current and up-to-date information. I did this to make sure you have the **best resources** for your learning. I hope you find these websites useful. If you have any questions or need help using them, just ask. Your success matters to me.

- TripAdvisor
- Wikitravel
- Conde Nast Traveler
- The matador network
- The broke backpacker
- The smarter travel
- The points Guy

- Utopia guides
- Go world travel
- The journeyWoman
- Black and Abroad
- The planet D
- Nomadic matt
- The broke backpacker
- Our escape Clause
- Trip.com
- Salt in our Hair

Using content from these travel guide sites is okay as long as you do it the right way. If you're not sure, just ask for help.

When using content from these travel guide websites, it's important to do it the right way. Please avoid these things:

- Don't just copy and paste. Put things in your own words.
- Avoid getting content from sponsored sites.
- Never copy someone else's work or ideas (paraphrase before use).
- Tell the facts as they are. Don't change them.
- Double-check to make sure the info is still true.

METHOD 2

I like Method 2 because it helps me in two ways:

- To find content.
- To get ideas for my Table of Contents.

Here is how to do it:

Open your web browser and search for a keyword. For example, if you're making a travel guide for the Azores in 2023, type "Azores travel guide 2023" in the search bar.

Many websites will come up.

First, look at what these websites have in common.

Second, check their titles, like "Things to Do in Azores" or "20 Reasons to Visit Azores."

You can use the content from these websites to create your Table of Contents or add it to your existing one.

Also, you can use this method to obtain content by clicking on the links to **specific** websites.

I encourage you to gather your content from **Google**, but it's important to be cautious when using AI like Bard or ChatGPT for your travel guide because they may not provide completely accurate information.

BOOK COVER

Your book cover is the first thing potential readers will see, so it's important to make a good impression. A well-designed book cover can help you attract more readers and sell more books.

Alright, my brilliant students, get ready to begin on an exciting journey into the captivating realm of book design! Picture this: you have the power to create book covers that not only grab readers' **attention** but also leave a lasting impression. Are you ready to make your books stand out from the crowd? Let's dive in!

Imagine walking into a bookstore or browsing through an online marketplace. What's the first thing that catches your eye? That's right, it's the **book covers**! A well-designed cover is like a magnet, drawing readers in with its captivating visuals and enticing them to explore further. It's your chance to make a bold statement and captivate potential readers.

Now, let's talk about the power of **typography**. Fonts have personalities, just like characters in a book. They can evoke

emotions, set the mood, and convey the genre of your story. Play around with different font styles to find the perfect match for your book. Want to create a sense of mystery?

Go for an elegant and intriguing font. Writing a travel guide book? Choose a eye catchy and vibrant font that will make your customer feel attractive. The possibilities are endless!

But wait, there's more! Let's dive into the realm of imagery. Visuals have the incredible power to transport readers into your story's world. Choose images in or illustrations that capture the essence of your book, making readers curious and eager to dive into the pages within. Picture this: a breathtaking landscape, a mysterious object, or a captivating character that leaves readers begging for more. With the right imagery, you can ignite readers' imagination and make your book cover unforgettable.

Oh, and let's not forget about colors! Colors have the magical ability to evoke emotions and create a specific atmosphere.

Think about the mood you want to convey in your book. Is it mysterious and dark?

Opt for deep and rich colors. Is it light-hearted and fun? Go for bright and cheerful tones. Remember, a well-chosen color palette can make your cover pop and leave a lasting impression.

Now, let's bring it all together with composition.

So, my talented students, let your creativity run wild!

Explore successful book covers, gather inspiration from various sources, and infuse your unique style into your designs.

Remember, your book cover is the gateway to your story, and with the power of design, you can make it an irresistible invitation that readers can't resist.

Are you ready to take on the challenge?

Let your imagination soar and create book covers that will leave readers begging for more.

For example.

You are creating a book cover on **Nigeria Travel Guide** and you put **Oga Sabinus** picture on your cover.

Does that make sense?

Only use

Light font on the dark background

Or

Dark font on a light background

Some might ask where can I get my book cover beautiful pictures.

I know **90%** of us use only Canva pictures (canva pro)

I recommend you 3 sites that you can get awesome pics.

1. [Pixabay.com](https://pixabay.com)
2. [Unsplash.com](https://unsplash.com)
3. pexels.com

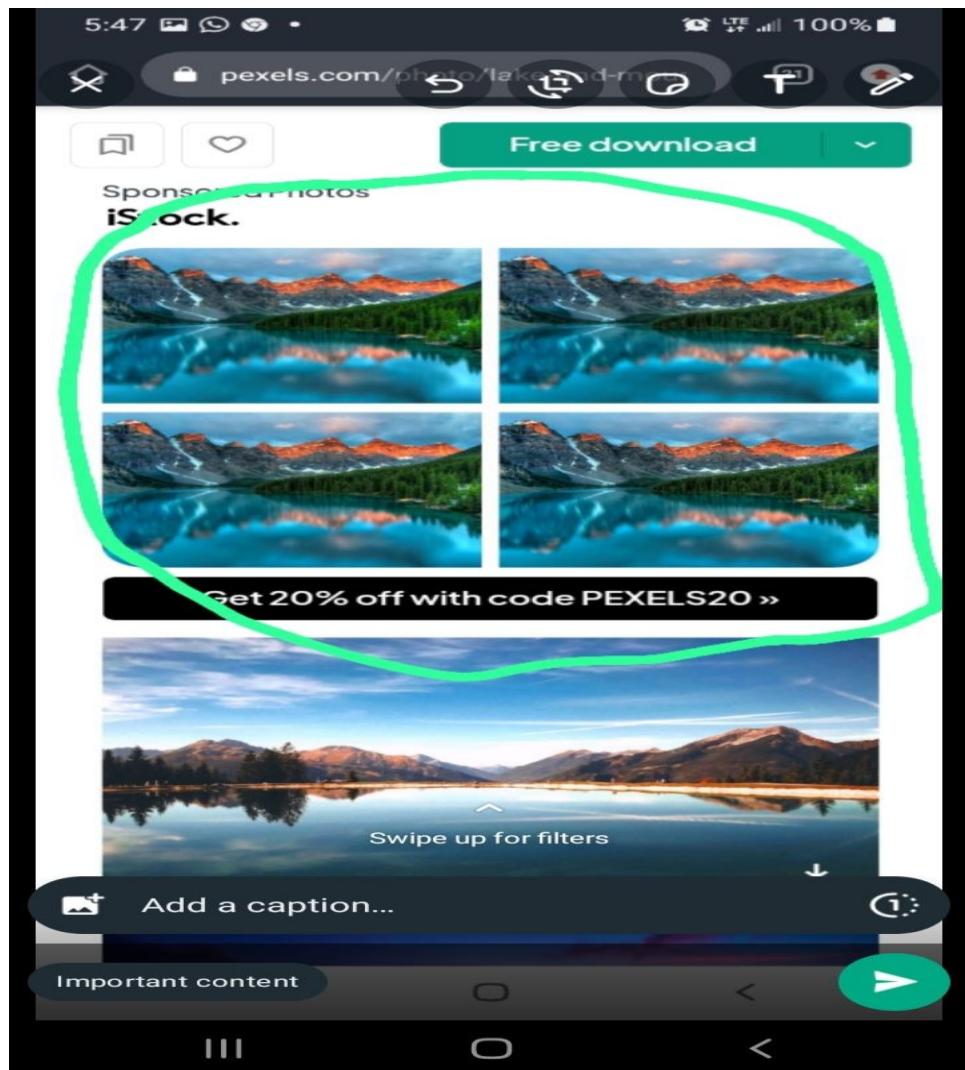

BUT

Let me warn you first.

Please please please don't use **iStock images (sponsored photos).**

NOTE

Make sure you manipulate (change their effect or crop them so that they will look different) the images gotten from the above sites.

Leave them to shine there, don't use it.

How to Craft Your book cover

First to go amazon.com

Search the book you are working on

Eg **Nigeria Travel Guide**

listen carefully

Look carefully what picture or what fonts do your competitors have in common.

Hope you are getting me?

Maybe when I search for Nigeria Travel

I see many Publishers are using (villa) in their cover

I can craft mine too

Don't use **Google pictures** on or in book

Please don't do that.

Another hack

Always check the best selling books

Check what they are in common

Then use it too

After that, Search for the picture on Canva or the websites(unsplash pixabay or pexels) I dropped earlier.

I repeat don't use Google pictures, **don't come and tell me Google pictures are good. Ehen**

I hope you get it right?

Branding

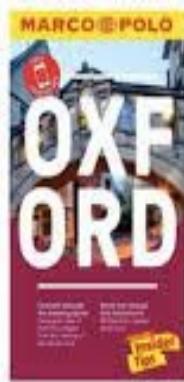

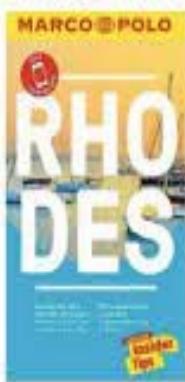

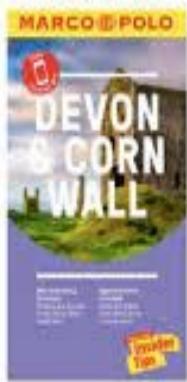

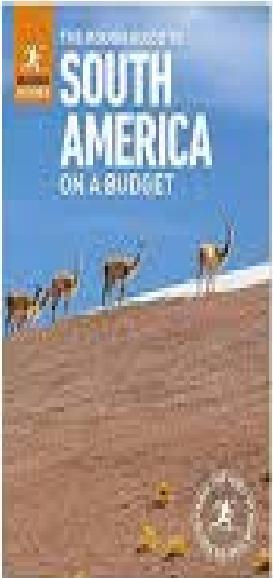

Branding your cover on KDP is the process of creating a cover that is visually appealing and memorable, and that helps to establish your book as part of a larger brand. A well-branded cover can help to attract readers, increase **sales**, and improve your book's overall visibility.

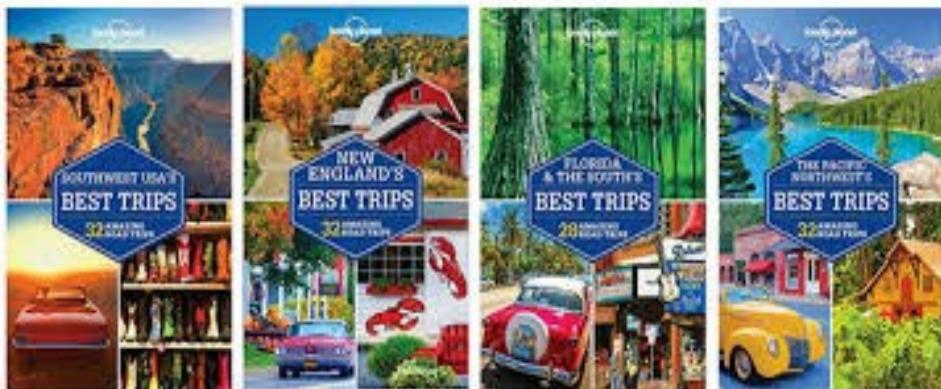

As you can see, these covers were branded

You can tell whose book is even without seeing the pen name

Because of what?

BRANDING!!!

Firstly

They use one or two fonts.

They place their title and subtitle in a beautiful way

hope say I dey ginger you?

+ How to solve Low sales or No sales problem

Based on my experience on kdp, i found out that US, UK, Germany, France and sometimes Brazil and japan buy books on Amazon often.

Why not writing books on them specifically?

Because you can't tell me your books are not selling well on their marketplace.

People are complaining on No sale or low sales.

Let fix it

First,

- What season am in writing on?
- Is it summer or winter etc.....

Let me tell you the truth

Must mistake you people make, is that copying people's branding or keywords just to makes sales.

- **No sale or low sales**

Can you have only 4 books and expect to make a lot of money?

Let's look at this example:

Sagir has 100 books in his bookstore.

Jewel, on the other hand, only has 4 books.

Let's use common sense here. Imagine Fatima is looking for a book on "**how to be a better girlfriend,**" and both Jewel and Sagir are selling books.

Even if it were you, you'd probably go to Sagir's shop to buy the book. Even though jewel has the book, people are unlikely to buy from her.

Why? Because her book might not be very good, or people may not be interested in it.

Now, let's say Sagir sells 35 of his books, and jewel sells her 4 books (remember, jewel had only 4 books in her shop).

After these sales:

Sagir has 65 books left.

Jewel has 4 books left.

So, who do you think will continue to sell books? Sagir, of course!

In some places, you're writing about places to visit in January 2023, but it's currently November 2023. Nobody will buy your book because the information is outdated. The problem is with the information you provided or the place is not preparable to visit at that time.

Write books on, November, December and even january 2024.....

Ask Google or Bard don't use chat gpt here please
Only Google or bard

If it needs your criteria

Write on it

You will not complain on No sale or low sales By God grace.

Stop writing books which their **seasons** or **months** past.

Hope you find this Helpful.

Thank you.

Book description

One of the main problem writers make Is not having a compelling or persuasive book description.

Your book description must have

- **Hook**
- **Benefit**
- **CTA** (call to action).

Make it simple and straight forward. Go straight to the point.
Customers don't like long description even me too.

Cos reading it is stressful

Use bullet points, It makes reading easier

Mistakes most writers make when writing CTA

Using words like: Add to chart, Buy now...

Are you commanding them to buy your book by force?

Use Something like

Order a copy.....

and please stop writing long book description

Go straight to the point

Because all the things you have mentioned is inside your book

Sooo why writing it full again in your book description.

Grammarly

Customer will drop a bad review on your book, saying poorly written.

Most of you, believe people sent them to give you bad review
Nooooooooo

Your grammars are totally incorrect, and sometimes top authors give people money to give you bad review, You can't denied it.

Remember

Some wicked people give you bad review because your book is selling and some are not, cos your grammer isn't good or even hard to read.

The major errors you made are:

- Bad prompt when generating content
- Paraphrasing not well
- And most of you only paraphrase without even reading your content.
- Remember quillbot paraphrase base on the tune you select (fluency, standard, custom, professional or expand) know this and know peace.
- Quillbot paraphrase your work with synonyms.

- Chat gpt is a bot, knowing how to give it command matters.

❖ Secondly

Writing a conclusion for your travel guidebook is an important task as it provides a final impression and wraps up the overall experience you want to convey to your readers. Here are some steps and tips to help you write an effective and engaging conclusion for your travel guidebook:

1. ****Summarize the Journey**:** Begin by summarizing the main destinations, experiences, and themes covered in your travel guidebook. Highlight the key highlights and memorable moments that you've shared throughout the book.

2. **Revisit the Purpose**: Remind your readers of the purpose of your guidebook. Whether it's about exploring a certain region's culture, discovering hidden gems, or embarking on adventurous activities, restate the aim of your guidebook.
3. **Emphasize Transformation**: If your guidebook is about personal growth and transformation through travel, mention how the experiences you've shared can change a person's perspective, broaden horizons, or lead to self-discovery.
4. **Capture Emotions**: Share your personal emotions and reflections about the journey. Describe how you felt during different moments, what you learned, and how the trip impacted you. This can help readers connect on a deeper level.
5. **Offer Travel Insights**: Provide some valuable travel insights, tips, or recommendations that didn't fit into the main body of the guidebook. This could be anything from local customs to packing hacks or budget-saving tips.
6. **Invite Further Exploration**: Encourage readers to continue their own exploration by visiting the places you've

described or embarking on similar journeys. Suggest ways for them to engage with the destinations and experiences you've shared.

7. ****End on a Positive Note**:** Conclude your guidebook on a positive and uplifting note. Leave your readers with a sense of inspiration and excitement about traveling and discovering new places.

8. ****Call to Action**:** Consider including a call to action, such as asking readers to share their own travel experiences or connect with you on social media. This can help build a community around your guidebook.

9. ****Reflect on the Journey**:** Reflect on how the journey aligns with your initial expectations or how it might have surprised you. Share any personal growth or insights you gained from writing the guidebook.

10. ****Use Evocative Language**:** Use descriptive and evocative language to paint a vivid picture of the travel experiences you've

described. Transport your readers back to those places through your words.

11. ****Keep it Concise****: While you want to leave a lasting impression, remember to keep your conclusion concise and to the point. Avoid overloading it with information.

12. ****Edit and Revise****: Just like any other part of your guidebook, your conclusion should be carefully edited and revised for clarity, coherence, and style.

Remember that your conclusion should be a satisfying ending to the journey you've taken your readers on. It's a chance to leave them with a positive feeling and a desire to explore the world themselves.

Phrase

Picking the right phrases for a travel guide is important. A travel guide is like a helpful friend for people exploring new places. It should have words and sentences that are easy to understand and use. These phrases should be common in the country you're visiting. If you're creating a travel guide for the United States, it's natural to use English phrases since English is the primary language there. However, if you're making a guide for a country like France, it's smart to use French phrases because French is their main language. Good travel phrases make it easier for travelers to communicate, get around, and enjoy their trip. So, choose your phrases wisely!

- Azores travel guide

Just as I said before, to make it easier for people to find your book, you can narrow down your focus (niche down). For example, if you search for "**Azores travel guide**" on Amazon, there will be lots of results. To stand out more, you can add

specific phrases like "Azores travel guide **2023**", "Azores travel guide **2024**" or Azores travel guide **2023 and beyond**" This can work for all the keywords I give you.

On KDP, understanding your target audience and customizing your content for their tastes and preferences is a key to improving sales.

Mistake people make when selecting title, subtitle and solution to it

- Avoid titles that are too specific and won't interest many readers.
- Keep your titles short and clear.
- Don't stuff too many keywords into your title.
- Be truthful and don't make false claims.
- Think about what your readers want.
- Check what other travel guides in your category are doing.
- Use keywords in your title to help readers find your book.
- Make sure your title tells readers what your book is about.
- Stay updated on popular travel trends.
- Don't use names or phrases that belong to someone else without permission (eg lonely planet, fodor, rick steves, eyewitness, essentials etc).

Things to avoid when filling seven backend keywords

- **Repeating Words:** Don't use the same keyword more than once. Use different words to cover more search possibilities.
- **Weird Symbols** Avoid using symbols or strange characters in your keywords. Stick to regular letters and numbers.
- **Packing Keywords Together:** Don't put all your keywords together without spaces. This doesn't help.
- **Wrong Words:** Make sure your keywords match what your book. Don't put unrelated words.
- **Too Simple Words:** Avoid using words that are too general. Use words that really describe your product.
- **Bad Spelling:** Don't purposely spell words wrong to trick the search.

- **Other Brands:** Don't use the names of other brands in your keywords ((eg lonely planet, fodor, rick steves, eyewitness, essentials etc).)This can get you into trouble.
- **Saying What You Think:** Stick to describing your book, don't make claims about it.
- **Temporary Sales:** Don't put words related to sales or discounts in your keywords. They won't always be true.
- **Not Allowed Words** (eg free, best book, best seller, kindleunlimited): Make sure your keywords follow Amazon's rules. Some words are not allowed.
- **Mixed-Up Letters:** Keep the same style for your keywords, either all small letters or all capital letters. Amazon doesn't care about capital letters.
- **Too Many Similar Words:** Don't use too many words that mean the same thing. Just use the most important ones.
- **Uncommon Words:** Avoid using words that most people don't know. Use words that people are likely to search for.

MUST READ!!!!

The goal is to use keywords that really match your book so that people can find it when they search. It's important to follow Amazon's rules, and don't try to trick the system.

BONUS

FAQs that make reader fall in love with your book

Adding Frequently Asked Questions (FAQs) to your travel guide is like putting a helpful question and answer section in your guide. It's important because it makes it easier for people to find the information they need quickly. This saves them **time** and makes your guide more user-friendly. When people can find answers easily, they are more likely to stay on your guide for longer.

FAQs can also help you give specific information to your target audience and address their unique questions. Plus, you can use FAQs to indirectly promote your services, like tour packages or recommended places to **stay** and **eat**.

In your FAQs, make sure to answer questions that show why your book is really worth reading or buying. These questions should highlight the book's benefits and unique features. Here are some examples:

Extras: Mention any additional resources or **bonuses** included with the guide (planner or journal included).

Uniqueness: Highlight what makes your travel guide different from others.

Travel Benefits: Explain how your guide will enhance the traveler's experience.

Learning: Describe what readers will gain from your guide.

Accessibility: Clarify that your guide is suitable for all types of travelers.

Advantages: Emphasize the guide's comprehensive coverage and unique features.

Reliability: Stress that your guide is based on sound research and **expert knowledge**.

I'm so happy you have finished the course, and I hope you found it helpful. If you have also got my ebook and it's been useful to you, could you do me a **big favor**? Please write a **review** on my **selar** page. Your honest feedback helps me get better and guides other students and readers.
